EXPERIENCE

INFOSYS
Systems Engineer
July 2022 - Present | Jaipur, India

- Collaborated with cross-functional teams, including designers and product managers, to deliver high-quality software solutions.
- Well-versed in complete Project Management Life Cycle involving analysis, design, development, Iteration planning, strategy planning, risk analysis, configuration management, support, documentation, and implementation.
- Was responsible for implementing UI mock-ups, integrating third-party react libraries, and handling/creating Redux store data.
- Authored polished, effective, and scalable code to deploy APIs across multiple programming languages and frameworks, including Java and Node.js.

Systems Engineer Trainee
Apr 2022 - Jun 2022 | Mysore, India

- Learned Theory and hands-on on JavaScript, ReactJS, NodeJS, MongoDB, HTML, and CSS.
- Worked on ReactJS Virtual Dom and React Views, rendering using components custom HTML tags.
- Developed server-side applications using Node.js
- Was in the top 5 students of the batch.

TALDAR TECH CONSULTANCY
Jr. Software Engineer
Jun 2021 - Mar 2022 | Udaipur, India

- Crafted and integrated backend APIs and services into mobile applications.
- Documented code, technical processes, and project updates for reference and knowledge sharing.
- Designed and developed a mobile application aimed at monitoring delivery riders, leveraging the Flutter framework, and subsequently launched it on the Google Play Store.

IT Intern
Mar 2021 - Jun 2021 | Udaipur, India

- Learned and applied programming languages and frameworks such as PHP, Laravel, HTML, CSS, JavaScript, and various backend technologies.
- Supported the maintenance and troubleshooting of existing web applications.
- Assisted in quality assurance testing to ensure web applications meet specifications and user requirements using Selenium.

JECRC COLLEGE, RTU
BE in Electronics & Comm.
2021 | Jaipur, IN
Secretary of FnF, the official drama club of JECRC College, for the academic year 2018-19.

COURSEWORK

GRADUATE
Programming and Data Structures
Operating Systems
Algorithms
Compilers
Software Engineering
Linear Algebra
Probability and Statistics

SKILLS

Programming:
Java • SQL • JavaScript
TypeScript • Maven • C/C++ • PHP
Bootstrap • HTML/CSS • Dart

Frameworks/Libraries:
Flutter • ReactJS • ExpressJS
Laravel • NodeJS • MongoDB

Technical:
Git • Docker • JIRA • Cucumber
Jenkins • AGILE • Postman • Playwright
Putty • REST • SOAP • Selenium
VS Code • Android Studio • Firebase

Functional:
Problem Solving • Analytical Thinking
Collaboration • Accountability
Responsiveness • Multi Tasking
Detail Oriented • Project Management
Communication • Time Management
Client Relationship Management

LANGUAGES

English →Fluent
Hindi →Native
